ELECTRIC SUPPLIER CHOICE CONFIRMATION

Service Address
123 Maple Avenue
Anytown, IL 65432

Account Number
12345-67890

Dear Customer,

This notification confirms that your account is being switched to a new electric supplier. You are receiving this notification for one of the following reasons: 1.) you have affirmatively chosen a new electric supplier; 2.) you are a resident located within an opt-out government aggregation program area established pursuant to Illinois law and you have chosen not to opt-out of the aggregation program; or 3.) you are a resident located within an opt-in government aggregation program area and you have chosen to opt-in to the aggregation program. This change in suppliers will take effect within two business days of your account's scheduled meter reading date, **February 19, 2016**. Your new supplier is **HOMEFIELD ENERGY**. If you have any questions regarding your electric supply, please call **HOMEFIELD ENERGY** at **1.866.694.1262**.

No matter which electric supply choice you make, Ameren Illinois will continue to deliver your energy services in a safe and reliable way. If you have any questions on your delivery services – such as power outages, metering or service requests – please contact Ameren Illinois Customer Service at 1.800.232.2477.

For detailed information on energy choice, please visit the "Your Energy Supply Options" page at AmerenIllinois.com and the Illinois Commerce Commission's information at PlugInIllinois.org.

If you did not authorize this change or if you are not part of a government aggregation program, please contact Ameren Illinois Customer Service at 1.800.232.2477 immediately, but **no later than February 11, 2016**. Residential customers enrolling with a supplier by means of internet cannot cancel their supply agreements by contacting Ameren Illinois and should contact their supplier directly. Customers should consult their supply agreements regarding early termination as fees may apply.

Sincerely,

Customer Service
1.800.232.2477

Your Step-By-Step Guide to Savings

Below is a general outline of what will be happening behind-the-scenes and what kind of information you will receive as your electric accounts transition to the municipal aggregation program established by your community and administered by Homefield Energy.

Step 1: Happened TODAY. You received this Informational Packet describing municipal aggregation and introducing Homefield Energy as your new electric supplier. If you choose not to participate in this cost savings program, simply return the enclosed Opt-Out card before January 22, 2016. Any questions you have about municipal aggregation can be answered by calling toll free 866-694-1262 or emailing HomefieldCustCare@Dynergy.com.

Step 2: Once the Opt-Out period is over – January 22, 2016, Homefield Energy will coordinate with the utility and begin enrolling accounts in the program. During this Enrollment Period you will receive a "switching" letter from Ameren Illinois confirming Homefield Energy as your new electric supplier. (See Page 2 of this document (reverse side) for Sample "switching" letter.) This letter will include the approximate date Homefield Energy will begin serving your accounts and should arrive in your mailbox sometime in the next month, depending on when Ameren Illinois completes the enrollment process.

Step 3: Homefield Energy begins serving your accounts. In most cases this will begin with following meter read.

Step 4: You receive your first electric bill from Ameren Illinois showing Homefield Energy as your electric supplier. This information can be found on Page 2 of your bill under "ELECTRIC SUPPLY" and will look something like this:

Electric Power Supply – Homefield Energy			
866.694.1262	www.homefieldenergy.com		
Refer to supply contract for details			
Traditional Rate			
Total Energy Charge (\$/kwh)	1,000.00 kwh @ \$0.05870	\$58.70	
Total Supplier Charge			\$58.70

**The rates above are for illustration purposes only. Your usage and rates may vary.*

Step 5: It's just that easy! You will continue to receive your bills from Ameren Illinois and pay Ameren Illinois Utilities just like always. Any billing option, such as budget billing or autopay, you currently have in place will remain the same. If you have questions regarding your bill or a power outage you will still contact Ameren Illinois at 800-755-5000.

Thank you for allowing Homefield Energy serve your community.
If you have questions regarding municipal aggregation or Homefield Energy, please call 866-694-1262 or go to www.HomefieldEnergy.com.
